1. [redacted] Comment: All figures reported as received.

25X1

1. [redacted] Comment.

Coal stocks

available represented only about 20 percent of stocks considered as normal. This indicates that the critical coal situation was not eased by making available for railroad purposes, brown coal briquettes earmarked for civilian consumption. [redacted]

25X1

2. [redacted] Comment. Expressed in brown coal briquette units, coal stocks available on 30/31 January amounted to a total of 133,114 tons. According to the daily coal consumption quota of 24,500 tons fixed for January 1954, total coal stocks available on 30/31 January represented 5.6 days' requirements which corresponds to the total amount given in paragraph 1. [redacted]
